## MOUNTAIN TRAIL REGION

### Economic Impact

The six-county Texas Mountain Trail Region features rich heritage, diverse culture, and unforgettable history, including one Texas Historical Commission state historic site.

Travel and tourism are vital to the Texas economy, and the Mountain Trail Region is no exception. In 2022, direct travel spending in the Mountain Trail Region accounted for roughly \$2.4 billion of the overall \$91.7 billion spent by visitors to the state.

Visiting historic sites, communities, and museums is a significant component of the state's and region's travel industry. A 2015 study by The University of Texas at Austin and Rutgers University determined that more than 10.5 percent of all travel in Texas is heritage-related.

Following devastating declines due to the pandemic, the Texas travel industry continues its rebound in 2022. Travel spending increased an estimated 21% compared to the prior year, and all economic indicators now exceed the pre-pandemic level.
